

IP Phone Options

RingSquared™ cloud-based voice solutions are compatible with a wide range of business phones. Choose from models for front desks, contact centers, conference rooms, and more with the key features and high-quality audio you need.

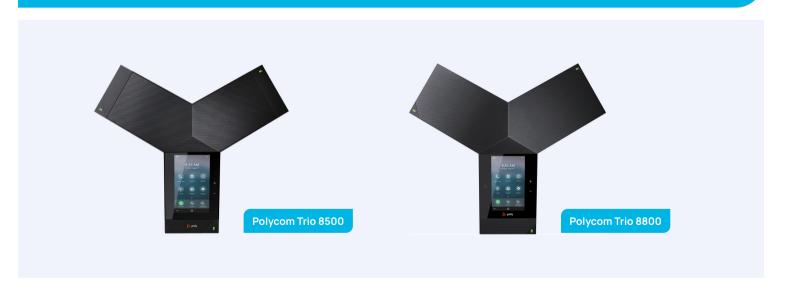

Polycom VVX Phone Series

Polycom VoIP desk phones provide high-quality, reliable phone calls with options up to 12 phone lines for high-volume callers. Choose from multiple space-saving desktop phone designs.

With Poly HD Voice and Acoustic Fence technology, your Polycom phones minimize background noise for clearer calls and better customer experiences.

Polycom Trio Phone Series

Designed for clear conference room calling, the Polycom Trio series features Poly Acoustic Clarity technology so every caller is easy to understand.

For small and mid-sized rooms, the Trio 8500's HD voice quality for high-quality audio. In larger conference rooms, the Trio 8800's built-in mics pick up audio within a 20-foot range.

Mitel SIP Phone Series

Mitel 6863

Mitel 6867

Mitel 6869

Mitel 6873

Ranging from light entry-level phones to power users, the Mitel SIP phone series features compact footprints, enhanced call management features, and up to 24 phone lines.

Mitel's advanced auto processing technology delivers high-quality calls that your users can hear clearly, even in loud offices and busy contact centers.

Phone Accessories & Options

Connect wireless, USB, or Bluetooth headsets directly to select phones with USB and Bluetooth support, giving users more flexibility and comfort during calls.

Expansion modules and LCD displays add additional programmable buttons and keys for frequently used lines and navigation.
